TOTAL ROLLING STOCK MAINTENANCE SOLUTIONS

www.wulgururail.com.au

ABOUT

Wulguru Group is one of the largest steel fabrication companies in northern Australia. The privately owned, Australian company has a core business of providing innovative engineering solutions across its six business units.

Unrivalled technology, capacity and infrastructure has seen the Wulguru Group position itself as a market leader in steel fabrication and engineering solutions since 1976.

Wulguru Rail Maintenance forms part of the Wulguru Group and specialises in providing total rolling stock maintenance solutions from its 15,000m² workshop which incorporates paint, blast and specific wheel machining facilities.

Wulguru Rail Maintenance is equipped to take on the largest of projects but at its core it is a service company with a primary focus on providing an exceptional customer experience.

As part of the Wulguru Group, Wulguru Rail Maintenance offers maintenance of above rail rollingstock including wagons, bogies, wheels and axles. Wulguru Group prides itself on exceptional customer service and is committed to delivering quality, onsite, on time.

WE SPECIALISE IN THE MAINTENANCE AND REFURBISHMENT OF ABOVE RAIL ROLLINGSTOCK

We specialise in the maintenance and refurbishment of above rail rollingstock including wagons, bogies, wheels and axles. Our purpose-built site is equipped to undertake the largest of projects and includes more than 15,000m² of workshop, paint, blast and wheel machining facilities.

We are a fully accredited Rolling Stock Operator under Rail Safety National Law and committed to delivering quality products, on time. Our Rail Safety Management System ensures the safety of our staff and the reputation of our clients.

We can undertake all aspects of wagon maintenance, rail wheel set and bearing maintenance, bogie reconditioning services and can provide planned and unplanned offsite services.

Wulguru Rail Maintenance is equipped to take on the largest of projects but at its core it is a service company with a primary focus on providing an exceptional customer experience.
